

Lausitz Energie Kraftwerke AG Power plant Jänschwalde	Transaction number: Promotion period:	V19_040 on request!
Units for sale: Water Film Contact Honeycombs (WFC-Honeycombs) for flue gas desulfurization absorbers	Technical contact person: Robert Guder Tel.: +49356019 3520	Facility address: Lausitz Energie Kraftwerke AG Power plant Jänschwalde Kraftwerkstraße 03185 Peitz Germany
size: 914x610x100mm material: polypropylene (Hostalen PPN 4160, Hostacom PPN 4160) - Built in - / Sparepart absorber inside of a dual circuit flue gas desulfurization - for optimization of desulfurization level	Send offers and commercial requests to: Ronny Theil email: value-sale@leag.de tel.: +49 35646 92965 mobile: +49 1525 4856050 fax: +49 35646 19 92965	Facility address: Lausitz Energie Bergbau AG Betrieb Veredlung An der Heide/AMZ 03130 Spremberg Germany

For visits please make an appointment with the technical contact person!

Benefits

- Honeycomb gap is self-cleaning through apertures at the honeycomb heads where the honeycombs rest on the support structure
- no accumulation of residues in the gaps – gap remains clear
- no more risk of deformation caused by residues
- distinctly longer lifetime
